Absents:

Hilda

II. Approve previous meeting minutes

III. Items on the agenda for this week:

A.

1. Event committee or not

Maggie- We should have a committee because it would be more organized, and it would save a lot of time.

Ani- There is no need for a committee. We will pick if we need a committee or not next time.

Aram- Think about it...

2. Students against schedule for Final exams

Bonny- the parameters are one week. You cannot add time to it. There is 15 weeks in a semester... if you go past this faculty is working more than their assignment. If you can find a better schedule in a week, then go ahead and think of something. I don't think you'll be able to change for this semester, maybe next semester.

If you have questions talk to program advisers.
